

3BHK Quality Snagging Checklist

A joint inspection checklist to run before final payment and key handover. From the 3BHK interior cost guide published on alcorone.com.

Space / Component	What to Verify	Pass / Fail
Kitchen Drawers	Load the drawers with weight; ensure tandem box rails slide smoothly without sticking.	☐
Cabinet Hinges	Check that all cabinet doors align vertically. Soft-close mechanisms should trigger in the last 15 degrees.	☐
Wardrobe Shutters	Sliding wardrobe doors should glide without noise. Ensure door brushes are fitted to prevent dust entry.	☐
BWP Verification	Inspect the raw edges of the kitchen sink cabinet. Confirm that the IS 710 grade stamp is visible on the ply.	☐
False Ceiling Finish	Shine a bright light flat against the ceiling surface. Check for visible seams, joints, or uneven patch paint.	☐
Electrical Sockets	Use a plug-in circuit tester to ensure all newly installed electrical sockets are active and properly grounded.	☐
Plumbing Lines	Run water in the kitchen sink and bathroom vanities for 5 minutes. Check for leaks in bottle traps and angle valves.	☐
